Wm Clark

My dear Sir,

Can you tell me anything about Clarkia, Bunch, and the Clark's river he speaks of in his F. Amer. Sept. 1. 160? The name of the genus is spelled Clarkia on tab. 11 of the same volume, and I suppose that that must be our starting-point, although we have generally gone on the opposite track, i.e. letterpress before plates. With kind regards.

I am, my dear Sir
Yours faithfully
D. Oliver
